Dhaka, Bangladesh

Summary

I am a motivated professional with a strong passion for creative design. I have hands-on experience in graphic, web, and UI/UX design. I enjoy creating visually appealing, user-friendly digital experiences. Additionally, I have developed skills in HTML, CSS, JavaScript, React, and more, connecting design and development to create responsive and accessible web interfaces

Skills

Frontend: React, Next.js, JavaScript, HTML, CSS, Tailwind

Backend: Node.js, Express.js,

Database: MongoDB

Auth & Payment: Firebase, JWT, Stripe

Tools & Design: GitHub, Figma, Illustrator, Axios, React Hook Form

Projects

Pet Adoption App | [Live](#)

- Led a team of 5 collaborators (originally 6) as Team Leader, overseeing development, task allocation, and progress tracking.
- Managed Git repositories, performed code reviews, and ensured smooth collaboration through version control best practices.
- Developed a unique AI-powered adoption feature to enhance user experience.
- Contributed to full-stack development of the platform using Next.js, React, MongoDB, Tailwind CSS, DaisyUI, and Stripe for payments.

Car Rental App | [Live](#)

- Designed and implemented a React-based platform to browse, book, and manage rental car & Integrated JWT authentication and role-based dashboards for secure access control.
- Implemented Stripe payments and MongoDB Atlas for booking and transaction management.

Recipe Book App | [Live](#)

- Built a MERN stack recipe management app with recipe CRUD, likes/wishlist, and protected routes.
- Integrated Firebase + JWT authentication for secure login and user access.
- Designed a responsive UI with React Hook Form and Axios, ensuring seamless user experience.

Professional Experience

• Project Officer (Remote) | Invicta Technical College, Australia (01/2022 – 04/2024)
